## Structural Steel Embeds

Consolidated Power Supply has a 20 year history of supplying certified structural steel to construction companies and fabricators. CPS regularly supplies fabricated embeds to the nuclear industry.

We have hundreds of 1000's of pounds of certified nuclear structural steel in stock.

This page contains the drawing and pictures of embed materials as supplied for Pacific Gas & Electric's Dry Cask Storage.

This picture shows the sixteen bars to be threaded thru the plate on the drawing. The fabricated plate circles are 130" +/- 1/4" dia and are flat within 1/8".
